REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest, in a method of gas assist injection molding wherein plastic material is injected into a mold cavity with a laminate material positioned therein, the steps of injecting a gas into the plastic material to form at least one hollow void in the plastic material and, after allowing the plastic material to solidify, venting the gas from the article and removing the article from the mold cavity. Prior art such as Ito (US Patent 4,968,474), Matsumoto et al. (US Patent 6,506,335), and Hara et al. (US Patent 5,277,865) teach forming a laminate article with a hollow void by the injection of gas into plastic material, but do not teach venting the gas from the article. Absent hindsight, there is no reason to modify the prior art to vent the gas from the hollow void.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne E. McDowell whose telephone number is (571) 272-1205. The examiner can normally be reached on MWF 8:00am-6:30pm.
